

I believe that the no call list is a great idea and that it should be left in place. I have registered and so have my family and friends. It is a great help at keeping unwanted callers from calling at any given time, day or night. These people are bothersome and intrusive and they should have to follow certain rules just like everyone else. This is a free country, and myself and everyone else who signs up should be able to be free from strangers calling us in the middle of dinner.

Thank You
